

## 9:00 - 12:00 - FSDI 102 Session #1 Ch44

---

- `<h1> ... <h6> , <p> , <header> , <div>`
- Using div, header, main, footer, section; we use them to wrap the code, group the elements and styling them
- Today we installed git HTTPS / SSH
- We were using the global instalation of email and users
- git commands to upload a change to github repository
  - `git add .`
  - `git commit -m "your message"`
  - `git push`
- basic commands on the terminal
  - `ls / dir` - list all the directories and files
  - `cd` - change directory
  - `cd ..` - going back to the directory
  - `cd \` - go to the root
  - `code .` - to open the vsc
